EDUCATION

SRM IST – Kattankulathur 2023 – 2027
B.Tech · Computer Science and Engineering • CGPA – 8.19

The Vikasa School, Thoothukudi 2021 – 2023
Class XII · CISCE Board

The Vikasa School, Sawyerpuram 2014 – 2021
Class X · IGCSE Board

EXPERIENCE

Boron Digital Pvt. Ltd. – App Tester Intern Dec 2025

- Performed manual testing of Android application modules, identifying UI/UX issues and functional bugs across multiple device configurations.
- Verified bug fixes through regression testing to confirm resolved issues did not introduce new failures.

Genospark – QA Testing Intern Jan 2026 – Feb 2026

- Tested specific modules across the company website and backend database to identify bugs and functional defects.
- Documented and filed issue queries for each bug discovered, detailing reproduction steps and expected vs. actual behavior.
- Re-tested fixed modules to verify patches and confirm resolution before sign-off.

JPMorgan Chase Software Engineering Virtual Experience Jan 2026
Forage – Spring Boot / Kafka / Java

- Integrated Apache Kafka into a Spring Boot microservice to consume and deserialize high-volume transaction messages using a configurable topic and embedded Kafka test framework.
- Implemented transaction validation and persistence with Spring Data JPA and an H2 SQL database, including entity modeling and balance updates across relational User records.
- Connected the service to an external REST Incentive API via RestTemplate and developed a balance-query endpoint returning structured JSON responses through a Spring controller.
- Verified end-to-end system behavior using Maven test suites with debugger-driven inspection across message ingestion, database operations, and external API interactions.

PROJECTS

Neby.ai – AI-Powered Multimodal Chat App Jan 2026

- Developed a multimodal chat application using React 19 and Google's GenAI SDK, integrating Gemini 1.5 and Veo models for text, image, and video generation.
- Implemented voice conversation support, creative content generation, and model switching, with Firebase handling authentication and session history.

DermRecord AI May 2026

- Built a full-stack clinical suite using Generative AI, NLP, and RAG to automate dermatological reporting and multimodal medical image analysis.
- Engineered real-time patient timeline management with Supabase Row Level Security (RLS) ensuring strict data privacy and role-based access control.
- Designed a responsive UI that enables dermatologists to view diagnostic support, patient histories, and directory records from a single dashboard.

Express Book Review API Jun 2025
IBM Course Project · Node.js / Express

- Built a RESTful book review API with Node.js and Express, supporting CRUD operations for reviews, user authentication via JWT, and async route handling with Axios.

SKILLS & TECHNOLOGIES

Languages: Java, C, C++, Python, JavaScript, HTML, CSS
Frontend: React, Tailwind CSS, React Native
Backend: Node.js, Express.js
Databases: MySQL, MongoDB, PostgreSQL, Firebase, Supabase
Cloud & Tools: AutoCAD, Figma
Version Control: Git, GitHub

CERTIFICATIONS

Programming in Java Dec 2024
NPTEL

Oracle Cloud Infrastructure 2024 Certified Foundations Associate Feb 2025
Oracle

IBM Full Stack Developer Oct 2025
Coursera

SAP Certified – SAP Generative AI Developer Feb 2026 – Feb 2027
SAP

GitHub Copilot Apr 2026 – Apr 2028
Microsoft
